SNOWBALL CONSTRUCTION

ROADS | CIVIL | BUILDING

Snowball Construction (Pty) Ltd is an infrastructure delivery company specializing in both Civil Engineering and Building Construction. It has built a solid reputation in the construction Industry. It has drawn on its rich history and a strong heritage of quality, stability and innovative leadership to prevail in the current market conditions. The company has evolved from housing developments and construction into civil engineering and construction related projects under its new young, vibrant and dedicated leadership, with a CIDB Grading of 7CE and 6GB.

A Subsidiary of
M&D Holdings

OUR HISTORY

“The company is well established today and has specialized professionals”

Snowball Construction (Pty) Ltd was founded and formally registered in 1994 with the aim of constructing and renovating buildings.

Because of the increase in development after 1994, the company took the opportunity to take on government housing projects and civil engineering projects. The company is well established today and has specialized professions such as civil engineers, technicians, project managers and land surveyors incorporated thus enabling the firm to deliver distinguished services to clients.

The company has since expanded its sphere from predominately the Free State to Gauteng, Northern Cape, Eastern Cape and North West provinces. In 2018 when the M&D Holdings Group acquired 100% shareholding of the company.

VISION & MISSION

Snowball construction (Pty) Ltd has set its vision on becoming a premier player in the construction industry, providing excellent engineering and technical solution for the construction and engineering industry in local and international markets. We aim to provide the outmost satisfaction to our client through innovation, professionalism and superior quality solutions.

To form long-term relationships with our clients and partners, through the use of high and affordable quality construction and engineering solution and employing the best resources and latest techniques.

“Broad Based
Black Economic
Empowerment
Contributor
B-BBEE Level 1 ”

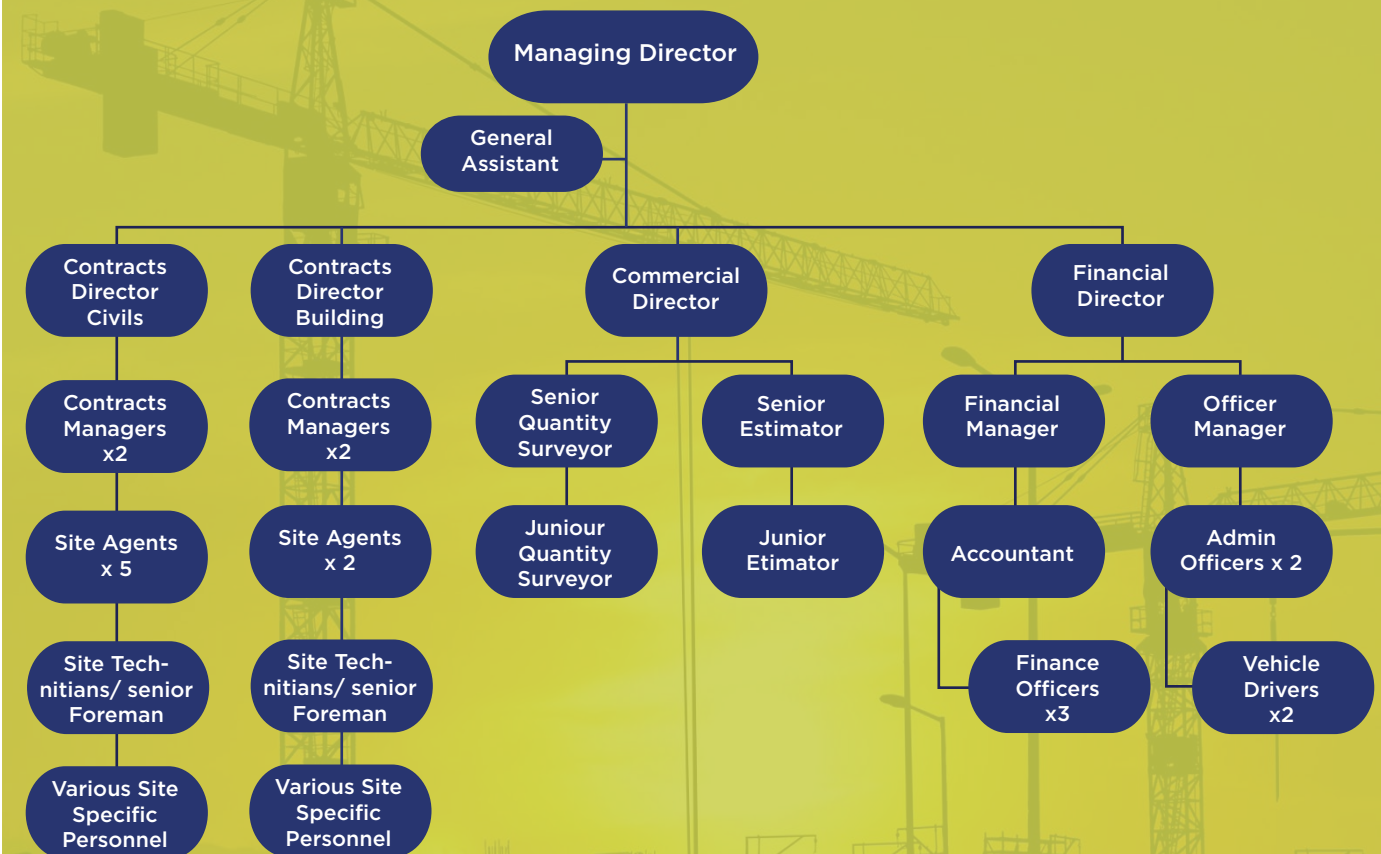

We are registered with:

- National Home Builder Registration Council (NHBC)
- Construction Industry development board (CIDB) and hold the following grading certificates
- 7CEPE • 6GBPE

We also aim to provide the highest possible standard of quality and service in construction, giving clients value for money and satisfaction. We therefore make sure:

- Our clients are always satisfied;
- Our work is done to the highest quality standard;
- Employees are trained and kept up to date with new innovation and new knowledge in the construction industry;
- We are at the forefront leading companies in bringing new ideas and techniques in the construction business;
- Environmental awareness is promoted.

ORGANIZATIONAL STRUCTURE

We care about and are personally committed to everything we do, especially our people, their safety and development, our customers and their satisfaction, the environment and indigenes of the communities we work in.

SERVICES

Snowball is proud to offer a wide range of services and solution for Road works and Civil infrastructures. We understand that client's needs differ, hence our expert/technical team offer tailored solution to better fit customer's needs. We provide rapid, cost effective and creative solution to our clients benefit. Our Team is capable of combining technical excellence with understanding of the client needs as well as the environment in which our clients operate. We are committed to working in partnerships with our clients, making sure they are aware of every stage of their projects. This helps in adding value to each of the completed project.

Providing Excellent & Cost-Effective Solutions

Groblershoop Upgrade

Groblershoop upgrading of bulk water supply & purification works

Kheis Local Municipality
R7.7million

SCOPE

Construction of 2.7km long, 250mm dia uPVC bulk pipeline connecting the existing water treatment works to the steel storage reservoir. This include all ancillary structures required for the smooth flow of water to the steel tank. Other works include the repair and maintenance of the existing concrete storage tank and minor maintenance to the water treatment plant.

SERVICES

- Project and Construction Management;
- Architecture • Quantity Surveying
- Civil • Structural

Kathu College Construction of New Classroom Facilities

Kathu College Construction of New Classroom facilities

Northern Cape Rural TVET College
R4 million

SCOPE

The replacement of temporary classroom facilities with 5 new classrooms and the replacement of asbestos water reticulation pipework in the campus with uPVC pipes. The temporary classroom structures had to be moved to allow for new construction to commence. The removal of asbestos pipes was done by an accredited asbestos removal company after which the pipe infrastructure was replaced with new uPVC pipes.

SERVICES

- Project and construction Management;
- Architecture • Quantity Surveying
- Civil • Structural

Road Construction

Northern Cape Road Construction

Dept of Roads and Public works, NorthernCape
R14 million

SCOPE

Regravelling of existing farming road with 150mm layer of gravel material sourced from borrow pits available in the area as identified by the client. Borrow pit overburden removed to access suitable material as per client approval. The material hauled from borrow to roadworks location for processing. Establishment of water storage facilities to meet required daily capacity for roadworks.

SERVICES

- Project and construction Management;
- Architecture • Quantity Surveying
- Civil • Structural

**Merydale Bulk
Sewerage line**

Merydale Bulk Sewerage line, Pump station & Rising Main

Siyathemba Local Municipality
R2.3 million

SCOPE

The construction of 1 new sewer pump station and the upgrading of 2 existing pump stations. This was to augment the capacity of the existing infrastructure and the provision of additional capacity to the community infrastructure that was at maximum capacity. Snowball worked in conjunction with another contractor that was providing the pipework and other civil services.

SERVICES

- Project and construction Management;
- Architecture • Quantity Surveying
- Civil • Structural

Fauresmith, Rehabilitation Of A Landfill Site

Fauresmith, Rehabilitation Of A Landfill Site (Transfer Station)
